DESTINATION

AWOH series of hermetic metal enclosures providing protection against external factors such as water (moisture) and dust (dirt). Appropriate edge design, a cast gasket on the door and metal lock(s) ensure an IP66 rating (IP protection rating).

Enclosure and door are made from 1.2mm thick sheet metal, the mounting plate from 1.5mm sheet metal. This ensures high resistance to mechanical damage - resistance class IK10 (degrees of mechanical strength IK).

- security systems - for protecting alarm devices, access control or CCTV monitoring
- industrial automation - for the protection of control and executive devices
- telecommunication installations - to protect telecommunication device
- electrical installations - electrical switchboards, protection of electrical equipment
