

## Product Feature

- Reproduces the frequency of first impact
- Reproduces the frequency of glass flexing
- Reproduces the frequency of glass breaking
- Used to test the effectiveness of the break glass detectors and sensors.

## Technical Specification

<b>Operating Voltage:</b>	9V battery
<b>Battery Life:</b>	2000+ operations
<b>Operating Temperature:</b>	10°C to 40°C
<b>Storage Temperature:</b>	-20°C to 60°C
<b>Simulated Glass:</b>	Plate glass
