

DS-3WG105GP-SI All in One 5 Port PoE AC Router

DS-3WG105GP-SI is a high-performance enterprise-grade router launched by HIKVISION for small and medium-sized enterprises. It uses high-performance dual-core processors and advanced software architecture, providing higher capacity and VPN service performance and a new business experience. The product is mainly applicable to SMEs, governments, schools, hospitals, and other scenarios requiring high-speed Internet access.

- I Gigabit WAN Ports
- 4 Gigabit PoE LAN Ports with 1 LAN/WAN Switchable
- 60 W PoE Power Budget
- 1000 Mbps Throughput
- Recommend 100 Users Access
- Support Multiple VPNs Including IPsec VPN, L2TP
- Support Powerful Security Features Including Firewall Policies, DDoS Defending, IP/MAC/URL Filtering, ARP Defending
- Support Behavior Management
- Compact Size for Flexible Deployment

•

Specification

General	
Shell	Metal
Weight	0.5 kg (1.1 lb)
Working Temperature	0 °C to 40 °C (32 °F to 104 °F)
Working Humidity	5% to 95% (no condensation)
Storage Temperature	-40 °C to 70 °C (-40 °F to 158 °F)
Storage Humidity	5% to 95% (no condensation)
Product Dimensions (W × H × D)	190 mm × 125 mm × 27 mm (7.48'' × 4.92'' × 1.06'')
Packing List	AC Router × 1, Regulatory Compliance and Safety Information × 1, Quick Start
	Guide \times 1, Screw Pack \times 1, Power Supply Adaptor \times 1, Power Cord \times 1
Power Consumption	Max. 65 W
WLAN Parameters	
Maximum Number of Managed APs	32
Maximum Number of Clients	100
Bandwidth	1 Gbps
Networking Access	Support fixed IP address, DHCP automatic address acquisition, PPPoE dial-up and other methods
Number of WAN Access	Up to 2 WAN Load balancing
Multi-WAN Load Balancing	Load balancing based on the destination address of the carrier, Load balancing based on link bandwidth, Load balancing based on user (IP address), Policy-based routing (PBR) for forwarding over specified lines, End-to-end link detection and backup functions
CAPWAP Tunnel	Auto AP serial number entry, AC discovery (DHCP option43, DNS), Assign basic AP network parameter through AC (Supported: Static IP, VLAN, Connected AC address)
Access Control	Open System, Shared-Key, WPA, WEP-64/128, dynamic WEP, WPA2, WPA3
Software Specifications	
Layer 2 Protocol	ARP, VLAN, ARP (gratuitous ARP)
Network Feature	IPv4, DDNS, UPnP, DHCP Server, NTP Client, Multicast, PIM, MLD Snooping, IGMP Snooping, Multicast group
VPN	IPSec VPN:, Support 100 IPSec connections, Support AH and ESP protocols (ESP supports 3DES and AES encryption algorithms), Support IKE to automatically establish SA, Support MD5 and SHA-1 authentication algorithms, Support IKE main mode and aggressive mode, Support NAT-T traversal, Support IPSec connection configuration by domain name (DDNS)
NAT	40000 Max. Access
AP Management	AP Discovery, AP Management, Support Multi-SSID Configuration, SSID Hiding, Channel Setting
User Management	User Authentication, Support user blacklist and whitelist, Controls the number of access users:, Based on APs, Based on SSIDs, Logs out users in any of the following ways:, Using RADIUS DM messages, Using commands, Support various methods to view information:, Displays the number of online users in an ESS, AP, or radio; Collects packet statistics on air interface based on user.

•

Support Protects against WinNuke attacks, Support Protect against Ping of Death attacks, Support Protect against SUP Flood attacks, Support Protect against UP Spoofing, Support Protect against IP Spoofing, Support Protect against IP Spoofing, Support Protect against Fraggle attackSystem MaintenanceSupport device management via web; Support DHCP Client. Enabled by default for dynamic assignment of management IP addresses; Support per termote management via Hik-Partner Pro., Support cable detection. Abnormal open circuits and short circuits as well as network cable length can be detected; Support per more for fault locating.Version UpgradeSupport one-click activation and remote management via Hik-Partner Pro. Functions supported: 1. Display the port rate. 2. Display the port rate. 2. Display the port sand devices. 6. Remotely upgrade the device.Hik-Partner Pro1 Gigabit WAN Ports 4.
