

## DS-K7M102-M M1 Non-Contacting IC Card

Designed with the PVC and AB glue, the IC card contains a small shape, which is convenient to hand on the keychain. The card adopts ISO14443 Type A standard to communicate and its data transfer rate is 106 Kbps (for read and write). The card can be applied in the scenarios of enterprises, shops, and other security places for person identity recognition.

## Available Model

DS-K7M102-M

## Specification

| Model                  | DS-K7M102-M                                  |
|------------------------|--|
| Material               | PVC, AB glue                                 |
| Communication protocol | ISO14443A                                    |
| Data transfer rate     | 106 Kbps                                     |
| Data storage           | 1024 bit (Read/Write)                        |
| Storage structure      | 16 sectors (4 blocks per sector)             |
| Working temperature    | -10 °C to 50 °C (14 °F to 122 °F)            |
| Storage temperature    | -25 °C to 65 °C (-13 °F to 149 °F)           |
| Reading distance       | 0 cm to 4 cm                                 |
| Write endurance        | 10,000 times                                 |
| Data retention         | 10 years                                     |
| UID                    | 4 byte                                       |
| Dimensions             | 26 mm × 50 mm × 4 mm (1.02" × 1.97" × 0.16") |
