

The Extra Large Enclosure is a universal sturdy metal enclosure designed for general purpose installation of Inner Range equipment. The flexible design allows for the complete range of Inner Range controllers and modules to be fitted in various custom configurations to meet almost any installation requirement.

A range of powered or non-powered models are available.

The Extra Large Enclosure's low profile side elevation protrudes less than 90mm from the mounting surface.

Features

- Robust metal enclosure
- Designed for universal installation requirements
- Suitable for Integrity Controllers and Modules
- Suitable for Inception Controllers and Modules
- Mounting options for 18Ah or 9Ah Lead Acid Batteries
- Optional battery holder brackets are available
- Low profile design - size 702(L) x 358(W) x 85(D)
- Suitable for medium or large size equipment mounting plates

Specifications

Physical

Enclosure Size	702(L) x 358(W) x 85(D) (mm)
