

SPP-400-W

The **SPP-400-W** indoor sounder is used for acoustic alarm signalling. It is designed to operate in the detection line of the **ACSP-402** addressable fire alarm control panel.

- acoustic signalling by means of piezoelectric transducer
- signalling controlled by the control panel:
 - different tones for different alarm conditions
 - 32 selectable tones
- double-sided short-circuit isolator
- power supply from the detection line
- available in red (**SPP-400**) and white (**SPP-400-W**)
