

SPW-250 R

INDOOR SIREN WITH ACOUSTICAL SIGNALING (BATTERY BACK-UP)

- acoustic signaling: piezo transducer
- automatic alarm on power failure
- lithium battery back-up power
- tamper protection against:
 - opening
 - removing from mounting surface
- available also in blue (**SPW-250 BL**) and orange (**SPW-250 O**)

TECHNICAL DATA

Environmental class	II
Average current consumption (standby mode) (±10%)	100 µA
Operating temperature range	-10...+55 °C
Nominal supply voltage (±15%)	12 V DC
Max. current consumption	90 mA
Weight	160 g
The intensity of sound	120 dB
